### TO BE TESTED IN COURT.

A "Sunday Sun" Newsboy Placed Under Arrest—Trial Dec. 1st.

A decisive step was taken to-day by the police in the effort to stop the sale of the *Sunday Sun* in Decatur. Mayor Chambers, over a week ago, ordered that the ordinance against the sale of immoral and obscene publications on the streets be enforced, and warrants were issued to be served should any boys be caught selling the *Sun*. To-day near the corner of Lincoln Square Officer Brockway, found a boy selling the paper and he was arrested. The name of the lad is Bert Damon, who had sold 20 copies of the *Sun* before the officer nabbed him. The boy was taken to the office of Justice Stevens and the trial of the case was fixed for Thursday, Dec. 1st at 8 a. m. City Attorney E. S. McDonald, whose last case was in the United States Supreme Court, appeared for the prosecution and Attorneys Harvey Pasco and J. M. Gray for the defendant. The *Sun's* general attorney, H. L. Strohm, who was lately in Decatur trying to have the order preventing the sale of the paper recalled, was not present; but the *Sun* was ably represented by Pasco and Gray. It is supposed that Damon was put on the streets with the papers to provoke the arrest.

There is no question but that the 'Squire's office will be crowded to the doors at the trial on Thursday. Very likely many discriminating citizens will be put upon the stand to give their opinion as to whether or not the *Sun* contains matter of an objectionable nature.

### CALLED AWAY.

Death of Mrs. John S. Jones at Her Home West of Decatur.

Mrs. Alice-Harris Jones, wife of John S. Jones passed away in death at 10:30 last night at the family home west of Decatur in the 43rd year.

The deceased who was reared and educated in the family of the late Dr. Ira B. Curtis, was a notable christian woman, and had many friends who loved her for her personal worth and goodness of heart and mind. She had been afflicted with consumption for years, and was always patient and resigned. She was a member of the Episcopal church since girlhood.

Until recently the family resided in Long Creek township. Over a year ago they went to California, but as the climate did not help Mrs. Jones, they returned to Mason county.

The deceased leaves a husband and three children. James Jones is on the farm in Long Creek township; Claude Jones is with Otto E. Curtis & Bro., the jeweler, and Miss May Jones is a student at the High School.

The funeral will take place from St. John's church on Sunday at 1:30 p. m. and the interment will be at Greenwood in the I. B. Curtis family lot.

### TRUNK FULL OF MONEY.

\$54,000 Counted Out by a Shelby County Man.

A story comes from Olney to the effect that about five years ago Morgan Bryant removed from Shelby county to a farm he had purchased near Parkersburg, just over the line in Edwards county. To all appearance he was a thrifty, well-to-do farmer and was quick to see a money bargain. Although not able to read or write he was one of those who possessed a keen perception of the world's affairs and absorbed a vast amount of knowledge and business tact by dealing with his fellow-men. He seldom was overcommunicative but an excellent listener, and not even his wife or children shared his confidence to the extent that he would divulge his business transactions. Mr. Bryant died November 10, having reached the age of 30 years. Prior to his death-bed illness he sent for his friend, Elder H. H. Mullins, of Parkersburg, and employed him to draw up his last and only will. This instrument has just been filed in the county clerk's office of Edwards county. It bequeaths \$10,000 in cash to his wife, Urina Bryant, to be accepted in lieu of a dower, and after his debts are paid the residue of his property of every description is to be equally divided among his children, the heirs of William C. Bryant, deceased. Samuel Bryant, Malinda Celars' heirs and Sarah E. McDaniel-Isaac C. Kesler, of Shelbyville, his life-long friend, is named as executor. A few days ago Mr. Kesler arrived to take charge of the property and to file his bond. A thorough examination of the family residence was made to secure deeds, notes and mortgages. In the attic an old, time-worn trunk was found, securely locked. It was soon opened and what a find! It was literally filled with wealth. Mr. Kesler, in the presence of the family, counted out \$54,000 in cash, \$4,500 of which was in \$20 gold pieces. Deeds to 4,000 acres of valuable land in Shelby, Edwards and other counties were also discovered, besides a few good notes, amounting in all to about \$100,000. Mr. Kesler had the money promptly removed to a bank for safe keeping. No one ever dreamed of Mr. Bryant's wealth. Although his family knew that he was continuously trading in real estate they had no idea that his speculations were so profitable. Your correspondent was well acquainted with Mr. Bryant and has frequently heard him relate how he obtained a start in life by saving money when he worked as a farm hand for from 25 to 50 cents per day. Honesty was his cardinal principle, and he had the respect of every one who knew him. It is said that he owns stock in one of the banks at Shelbyville, Ill., but no one can give a reason for his hoarding money in such an insecure old trunk.

### The Comet.

A few days ago Prof. Swift said the comet would appear to delight or crush the people of earth some time between November 24 and November 27. The suspense will soon be over. Sunday will be the 27th, and at 9:30 p. m., not later, we are assured the comet will appear.

Prof. Francis Very of Allegheny Observatory, has been conducting a series of observations of the comet during the past several days and last night made the announcement that it is a cold body which shines only with reflected light.

The observations of Prof. Very prove positively that the movements of the body are accompanied by no meteoric showers, and that it has not been so near any other heavenly body as to cause expectations of a collision. There is also no fear of its coming against the earth. It is at present in the constellation Andromeda and is moving very rapidly. Prof. Very has made a number of drawings of the heavenly wanderer which will be used in future observations, perhaps when it returns after many years. He identifies it positively as Biela's comet.

Prof. Hubert A. Newton, of the Yale Observatory, in speaking of the meteoric shower of last Wednesday night says:

"About 10 o'clock the numbers seen here, in spite of floating clouds, were about ten to the minute for one observer. It has been found by trial that one person can not see one-sixth of all the meteors visible in the whole sky, hence the above number corresponds to at least sixty a minute, or at a rate of 3600 an hour. Whether the display continued a whole hour with that intensity can not be told from observations here, because the sky became overcast shortly after 10 o'clock. This appearance of the meteors last Wednesday night should not discourage, but should rather encourage, those who are expecting them on next Saturday night or Sunday night. In 1872 a sprinkling of these meteors was seen in New Haven and in Germantown, Pa., on the evening of the 24th. There was a magnificent display in Europe on the night of the 24th. That sprinkle and the display of last Wednesday night belong unquestionably to a third fragment of the Biela comet, one never seen in the telescope, and not to one of the two principal fragments seen in 1846 and 1852. We shall cross the track of the principal fragments about the 27th of November, and we have a fair chance of seeing meteors from them on the preceding or following night."

The Week's Business and the Outlook, as Reported by R. G. Dun & Co.

NEW YORK, Nov. 26.—R. G. Dun & Co.'s weekly review of trade says:

The announcement of gold that will be exported to-day, though not in large amounts has not necessarily as much meaning as many suppose. Foreign exchange does not yet justify exports, and movements not warranted by the state of exchange may be due to temporary and trifling influences. But larger net exports of gold to November have been known but once in thirteen years, and they are likely to affect speculative markets. The underlying cause is the excessive production of cotton and wheat last year which overbore the world's markets, and thus caused the low prices here this year and the shipwreck of cotton. Apprehension about American finances has also affected European purchases of stocks; but monetary needs abroad, resulting in part from Russian demands, seem to be the immediate cause of the call upon this market. A large outflow of gold at this season might be important, but there appears at present no reason to anticipate a large export. The condition of business throughout the country appears excellent with the volume of trade greater than in any previous year.

At Boston trade is good, prospects are considered excellent and money is easy at lower rates. Merchandise is fairly active and though wool goods are quiet the mills are well employed, while sales of cotton are very large with an advance in prices. In satisfactory demand. At Philadelphia trade is generally fairly active, especially in hardware and in electrical supplies and plants; money is easier from lack of demand and is expected to be easier than usual for the coming month. At Baltimore a slight increase is seen in the local demand for goods, the supply of money is ample, and the caution shown in southern dealings has been justified by excellent collections this season. At Cincinnati cigar manufacturing does well, exceeding last year's trade 15 per cent, and jobbers are doing a satisfactory business with good prospects. Trade is good at Cleveland, though not changed in iron, and dry goods are dull. Money is close, with active demand. At Detroit trade is fairly good to that of last year, and money is in strong demand, but iron is lower. The volume of trade at Chicago is fair, and collections are good with money in strong demand, currency being wanted for the southwest. Receipts of wheat and broomcorn are more than double last year's; of butter 50 per cent larger, with slight increase in flour, barley, cattle and sheep, while in hides and oats the decrease is 10 per cent; in corn, dressed beef and wool 20 per cent; in eggs, lard and rice 60 per cent, and in wheat and seeds 50 per cent. Smaller receipts are due in part to the phenomenal stock on hand, those of wheat and oats being nearly double last year's. Trade at Milwaukee is stimulated in all lines with gratifying results, and money is in good demand. At Minneapolis and St. Paul there is good trade, with collections improving, though still somewhat backward. The Minneapolis flour output is 187,000 barrels against 160,000 last year, and the lumber market is strong, the cut being 500,000,000 feet, the largest on record. Trade in Omaha is very active, with collections good and money easy. At Denver trade is good with fair collections and at St. Louis retail trade is improved by more favorable weather. Business at Memphis has slightly improved, and also at Little Rock, though crop receipts are not encouraging, while trade is improving at New Orleans with money much easier and cotton and sugar very active.

In speculative markets cotton has absorbed interest because of enormous transactions amounting to about 6,000,000 bales or nearly the entire crop, in the broken and unventil week.

Low crop estimates now prevail all the south on the ground that frost has done much damage. Wheat is comparatively inactive with

### Peculiar, You Know.

Did you ever consider the peculiar  
properties of the figure 9. Take a great  
many people it seems entirely unable  
to get away from itself. Multiply it by  
2—18. One and eight make 9. Multiply it by  
3, by 4, by 5, or by any number of fig-  
ures and the totals are the same. This  
is also characteristic of the 99 cent store.  
Visit our stores once and you will at  
once be struck with the hundreds of pe-  
culiar novelties gathered from all parts  
of the globe and the most peculiar thing  
of all is how we can sell them at such  
low figures. 310-312 North Water at 221  
East William street. 22-dlw
